Serving The Full Metropolitan Area of Chicago,  
Northwestern Indiana and Parts of Southern Wisconsin

## About Us

**Integrated Respiratory Solutions** is a full-service clinical respiratory care and specialty medical equipment provider serving the Northern Illinois, Northwest Indiana, and Southern Wisconsin areas since 1988. Our core focus is respiratory disease management, patient care services, and sourcing of specialty equipment for patients with chronic and complex respiratory diseases. We accomplish improved outcomes by carefully assessing the patient's condition, implementing advanced care plans and protocols, and closely collaborating with the patient's physician and interdisciplinary care management team. Our key mission is to improve patient quality of life, enhance patient breathing, and reduce unnecessary utilization in this unique population.

## Specialization

- Respiratory Medical Equipment and Support Services
- Disease Management Services Programs
- Readmission and Unnecessary Utilization Specialty Programs
- Sleep Coach Program offering Ongoing Support and Oversight with a Focus on Therapy Compliance
- Respiratory Care Specialists Supporting Home, Facility and Clinics
- Clinical Triage and Management Support Services
- Virtual Equipment Set-ups and Clinical Care Support
- Same Day Clinical Support with 24 Hour Services

## Respiratory Disease Focus

- Chronic Obstructive Pulmonary Disease (COPD)
- Acute and Chronic Respiratory Failure
- Amyotrophic Lateral Sclerosis and other Neuromuscular Conditions
- Cystic Fibrosis
- Bronchiectasis
- Idiopathic Pulmonary Fibrosis
- Hypoventilation Syndrome
- Pulmonary and Neurological Sleep Disorders

## Respiratory Equipment

We provide specialty medical equipment and clinical support services to treat and manage patients with chronic and complex respiratory diseases and sleep disorders. We offer the following respiratory equipment:

Invasive and Non-invasive Ventilation

VOCSN

High Frequency Chest Wall Oscillation

RespiTech Vest

Cough Assist

Suction/Trach

Oxygen Therapy

POCs

CPAP/BiLevel

Interfaces

Nebulizers

Capnography/Oximetry

## Respiratory Programs

**Carelogics** is Integrated's advanced respiratory disease management program that applies detailed care plan protocols and logics to manage, support, and oversee the respiratory patients in the home. This advanced program significantly improves respiratory health, health outcomes, and reduces events of hospital readmissions. Detailed monthly care plans are implemented and overseen through RT-LED clinical home visits, health coaching phone calls, and monitoring technology.

## Specialty Care Program Detail

### Patient Management

- Assessment & Care Plan Assignment
- Detailed Care Plan Implementation and Management
- Monthly Home Visits, Health Coaching, and AAT
- Data Collection & Outcomes Reporting

### Education & Support

- Medication
